PROFILE

Frontend Developer skilled in building responsive, real-world web and mobile apps using React.js, Next.js, Firebase, and modern UI libraries like Tailwind CSS. I've developed and launched complete applications — including a mental health coaching platform now live on Android, with the iOS version in production. Projects include features like Stripe payments, user dashboards, session booking, and push notifications. Passionate about creating clean, scalable interfaces and continuously learning new technologies. Currently seeking an opportunity to contribute to a collaborative team and deliver impactful digital experiences.

TECH STACK

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Front-End:** React.js, Next.js, Tailwind CSS, Bootstrap, Svelte, Angular (basic)
- **Back-End :** Java, C++, C#, Python, REST APIs (JSON, XML), MongoDB, MS SQL Server
- **Database:** Firebase (Auth, Firestore, Storage, Messaging), REST APIs, MongoDB (basic), SQL, Stripe API
- **Tools & Platforms:** Git, GitHub, Vercel, WordPress, Make (Integromat), Postman, Elementor
- **UI/UX:** Figma, Responsive Design, UX/UI Best Practices, WCAG / AODA Awareness
- **Workflow**: Agile / Scrum, Version Control

PROJECTS

Coach Asmaa App – React.js, Firebase, Tailwind CSS, Stripe, Capacitor
A bilingual mental health coaching app built for real-world use, now live on Web & Android, with iOS in production.
- *Developed full-stack app with user and admin dashboards using React + Firebase (Auth, Firestore, Storage)*
- *Integrated Stripe payments, session booking, and smart reminder systems*
- *Designed mobile-first UI with Tailwind and deployed via Vercel, Google Play, and Capacitor*
  Links: GitHub • Live • Android App

HOJ Rental Platform – React.js, Firebase, Make (In Progress)
Multi-vehicle rental system with admin dashboard and booking logic for car/truck fleets
- *Building frontend and backend using Firebase and React*
- *Integrated automated email workflows using Make (Integromat)*
- *Planning modules for smart pricing, invoice generation, and contract handling*

i3 Institute Website – Svelte, Tailwind CSS
Nonprofit education platform offering language resources and community content.
- *Built frontend using Svelte and styled with Tailwind CSS*
- *Delivered a responsive, accessible, and user-friendly UI*
  Live : http://www.i3institute.ca

Pyramine Investment Website – WordPress, Elementor
A corporate website built for an investment firm (no-code project).
- *Designed the site using Elementor with mobile responsiveness and clean layout*
- *Delivered a fully functional business site and assisted in SEO preparation*
  Live: www.pyramineinvestment.com
